TREVOR HIGUERA

AUDIO ARTIST | TECHNICAL SOUND DESIGNER | GAME AUDIO IMPLEMENTATION

astrale.one | astraleofficial@gmail.com | linkedin.com/in/trevorhiguera

PROFESSIONAL SUMMARY

Game audio professional with five years of experience leading sound design, music, technical implementation, mixing, quality assurance, and delivery for interactive projects. Builds and troubleshoots audio systems in Wwise, Unreal Engine 5, and Unity, with hands-on ownership of content pipelines, source control, asset organization, and cross-functional implementation. Experienced working independently and within distributed teams.

CORE QUALIFICATIONS

Game Audio Production: Gameplay SFX, UI audio, Foley, ambience, field recording, synthesis, editing, mixing, mastering, and asset preparation

Technical Implementation: Wwise Events, RTPCs, States, Switches, containers, bank architecture, Addressables, spatial audio, profiling, and optimization

Tools: Wwise, FMOD, Unreal Engine 5, Unity, Blueprints, MetaSounds, C#, Pro Tools, Reaper, Ableton Live, Cubase, FL Studio, Git, and Perforce

Production Workflow: Audio QA, debugging, source control, implementation documentation, asset organization, independent ownership, and cross-discipline collaboration

PROFESSIONAL EXPERIENCE

GOOD1 Studios | Lead Sound Designer / Composer

SEP 2021 - PRESENT

- Lead end-to-end audio for Deadline Delivery and CODE RED within a six-person remote studio, owning audio direction, sound design, UI audio, music composition, implementation, mix, QA, and delivery.
- Designed, edited, processed, organized, and implemented 1,000+ SFX across vehicles, gameplay feedback, UI, Foley, ambience, and environments using field recording, synthesis, layering, and asset optimization.
- Built and debugged interactive Wwise and Unreal Engine 5 systems using Events, RTPCs, States, Switches, containers, Blueprints, and MetaSounds; profiled runtime behavior and resolved implementation issues.
- Compose, arrange, produce, mix, and master original scores and adaptive music stems while collaborating with design and engineering to support pacing, feedback, and the player experience.

What Is This Studio Ltd. | Sound Designer, Contract

JUL 2024 - OCT 2024

- Established the end-to-end Unity, C#, and Wwise pipeline for What Is This Sorcery, including event mapping, bank architecture, Addressables, and implementation workflow.
- Designed and implemented the game's sound and music systems from the ground up; improved the C# integration workflow and reduced integration time by 30%.

Riot Games | Music Producer, Contract

JUN 2023 - SEP 2023

- Produced, edited, organized, and delivered interactive music stems for VALORANT in-game environments, aligning musical transitions, arrangement, and final assets with creative and technical direction.

Artlist | Music Producer, Contract

APR 2022 - MAR 2023

- Created release-ready catalog music for a sync-licensing platform partnered with brands including Adidas, Nike, IKEA, Netflix, and Adobe.
- Collaborated with artist-management teams and released multiple tracks through the Artlist catalog.

EDUCATION

National University | Bachelor of Arts in Digital Media Design | Expected March 2027
